Why choose MFS²?

Let's start at the beginning.

In 1924, MFS created the first U.S. open-end mutual fund, making professionally managed, cost effective investments more accessible. Since its founding, the company has guided investors through boom times and recessions – experiencing every kind of market that an asset manager can experience. The key lesson: they are never finished building. Today, through a vast global network and a long-term, collaborative approach, teams at MFS continue to explore global opportunities while digging deeper into regional markets. The shared goal is to bring the best ideas and innovative solutions to investor portfolios.
