5	Approve Variation in the HCL Technologies Limited - Restricted Stock Unit Plan 2024	Mgmt	For	For	For
	*Voting Policy Rationale: A vote FOR these resolutions is warranted, although it is not without concern: * The scheme provides flexibility to grant PSUs, where the exact weightage of performance conditions for vesting, including the targets and thresholds for vesting have not been disclosed. The main reasons for support are: * The calculation of the conversion of the LTI into the RSUs (both Performance based, and Tenure based) is done based on the market price of the company's shares on the day prior to the grant date. The proposed RSUs will be granted in lieu of a portion of the employees' cash component of the LTI. Hence, the company would not have to bear an additional cost for granting of these units under the scheme and cost that otherwise would be booked for cash component will be booked against grant of these units. * The company has confirmed that variation in the RSU 2024 plan is largely to meet the requirements of implementing the proposed remuneration of MD C. Vijayakumar under item 4. Large proportion of those RSU's are performance based, and vesting conditions have been stated. * Market price linked RSUs ideally results in payouts being commensurate with the performance of the company.*

The main reason for support is: * Being a CPSE, the Government of India appoints members of the company's board. 	*Voting Policy Rationale: Item 3 A vote FOR the re-election of Robin Terrell is warranted, although it is not without concern because: * He is the Nomination Committee Chair who is considered accountable for Board diversity. Currently, the Company has not disclosed whether there is a director from a minority ethnic background, nor has it expressed a commitment to appoint a director from a minority ethnic background within the year. The main reason for support is: * The Board meets the gender diversity target of having at least one woman on the Board. Moreover, the Company stated that it is committed to achieving the ethnic diversity targets. Board diversity will be reviewed again prior to the 2026 AGM. Items 4 to 9 A vote FOR the re-election of Steve Heapy, Gary Brown, Simon Breakwell, Rick Green, Rachel Kentleton and Angela Luger is warranted because no significant concerns have been identified.*

Item 2, 5, 6, 10, 11, 13 & 14 A vote AGAINST the following nominees is warranted because: * The board is chaired by an executive director and the board is not at least one-half independent and Krishna Kumar Singh, Manish Raj Gupta, Alok Verma, Ashok Kumar Panda, Ashish Chatterjee, Surajit Mishra and Chitta Ranjan Mohapatra are non-independent director nominees. * Manish Raj Gupta is an executive director serving on the audit committee. * Ashish Chatterjee is getting a permanent board seat which could reduce his accountability by disallowing shareholder review for his continued service. Virtual-only meetings may impact shareholder rights in holding directors publicly accountable and may hinder meaningful exchanges between directors and shareholders. * Constitutional language providing for a hybrid meeting format, which includes physical attendance concurrently with the use of virtual technology to hold meetings, would not negatively impact shareholder rights (compared with a virtual-only meeting format) and would reasonably reflect the preferences of shareholders.*

Item 3 In the original analysis, an adverse recommendation for the reelection of Ingrid Player (Item 3) was considered warranted to signal concerns on the composition of the company's audit committee, as ISS classified CEO/Executive Director Brad O'Connor as an executive member of the committee. As confirmed by the company on October 2, 2025, the audit committee currently comprises non-executive directors Ingrid Player (committee chair), Martyn Myer, Richard Mohs, and Kim Wenn. 	*Voting Policy Rationale: Item 4 A qualified vote FOR the grant of performance rights under the FY26 STI Plan is warranted. Deferring 50 percent of the STI for up to two years is in line with market standard. The qualification is to highlight the following concerns: * An advance approval of the equity portion of the FY26 STI, even before the completion of the financial year in question, is inconsistent with local market practice. This concern is exacerbated by the fact that the board has not disclosed the performance targets in the STI plan historically; * The false choice offered to shareholders if the resolution is not approved. Item 5 A vote FOR the grant of performance rights under the FY26 LTI Plan is warranted. The maximum award level has not changed, the performance measures contain relative and absolute financial metrics, relative TSR and EPS growth, with a performance period of three years, consistent with the minimum market standard, and there are appropriate malus provisions. Some concerns are highlighted for the lack of a positive TSR gateway to ensure alignment of bonuses with shareholder outcomes, as well as the false choice offered to shareholders if the resolution is not approved.*

3	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
	*Voting Policy Rationale: A vote AGAINST the remuneration report is warranted. The ISS quantitative Pay for Performance analysis indicates a high degree of concern, and the following concerns are highlighted: * The CEO's FY25 fixed remuneration (set at $2,070,000) now exceeds ASX 26-60 peer group median, with a deputy CEO to be appointed in FY26 at a similar level of fixed remuneration (set at 2,000,000). In exacerbating, the CEO's FY26 'base salary' will be increased by 7.8 percent to $2,200,000; * Questionable justification and alignment of FY25 STI bonuses (noting a negative one-year TSR) given poor and absent disclosure of STI performance targets (financial performance measures are stated relative to undisclosed 'FY25 budget'); * The application of an 'individual performance' STI modifier, which appears to be based on poorly disclosed non-financial measures and board discretion, resulting in an upwards adjustment to the CEO's STI scorecard outcome that appears to have mitigated the application of downward discretion on the 'business scorecard' outcome to reflect a fatality in FY25. * The continued inclusion of poorly disclosed strategic and sustainability performance measures in the LTI which are considered to be part of executives' core 'day job' responsibilities and subject to 'board assessment', which have now contributed to misalignment between vesting, company performance, and shareholder outcomes for the FY22 LTI awards. * The FY22 LTI vested at 15 percent based on a discretionary board assessment with no specific and quantified performance targets disclosed. It is noted that both tranches of the award subject to RTSR failed to vest.*

4	Approve Grant of Rights to Graham Kerr	Mgmt	For	Against	Against	Yes
	*Voting Policy Rationale: A vote AGAINST the grant of rights to CEO Graham Kerr (Item 4). This is a bundled resolution comprising: * STI rights which represent the deferral of the FY25 STI into equity. * The FY26 LTI performance rights, assessed over a 4-year performance period with 80 percent assessed against relative TSR, which is broadly unchanged from the prior year. Concerns are raised for the misalignment and questionable justification of FY25 STI bonuses given the lack of appropriate transparency with regard to performance targets and hurdles and the deterioration of shareholder outcomes in FY25. It is also noted that the board applied an upwards adjustment via a poorly disclosed 'individual modifier' which appears to have mitigated a downward adjustment to the scorecard outcome relating to a fatality in FY25. Persisting concerns are also highlighted for the 20 percent component of the FY26 LTI grant based on non-financial performance measures related to strategic climate change and portfolio management objectives. These metrics are disclosed to be subject to a discretionary 'board assessment' and quantified and specific targets continued to not be disclosed. A qualified vote FOR the grant of shares and rights to Matthew Daley (Item 5) is warranted as these awards are disclosed to 'partially compensate' the deputy CEO for incentives foregone at his former employer. The qualification is to highlight the following: * The quantum of the aggregate award ($12,190,999) is large, exceeding median total pay at ASX 26-50 and ISS-selected peers. It is noted that Mr Daley also received a cash award of $2,000,000 on commencement. * A majority of these awards are fully vested at grant or subject only to service conditions. Approximately 49.2 percent of the aggregate award is conditioned on the same performance metrics utilised by FY25 and FY26 LTI awards. * No rationale is provided for the decision to grant fully vested shares, nor for the apportionment of awards between fully vested shares, service-based shares, or performance-based shares.*

5	Approve Issuance of FY26 NED Share Rights in Lieu of Directors' Fees to Jane Macey	Mgmt	For	For	For	No

7	Approve Issuance of FY26 3-Year Incentive Performance Rights to Duncan Coutts	Mgmt	For	For	For	No
	*Voting Policy Rationale: A qualified vote FOR the grant of performance rights to Executive Director Coutts (Item 7) and the CEO Finlayson (Item 9) is warranted. The structure of the FY26 LTI is broadly unchanged and remains subject to a 90 percent weighting to financial (relative TSR, share price and EPS), growth (aligned with the Tower Hill Project), production and reserves performance measures. This is sufficiently in-line with accepted market practice and shareholder expectations, given that the company's operations as a gold producer. The following concerns that warrant qualification are highlighted: * Questionable rigour of non-financial performance measures (10 percent weighting), which appear to be akin to 'bonuses for the day job' of executives, where they are already required to implement and enhance ESG practices and programs. * Some shareholders may question pro-rata vesting for the EPS tranche commencing at above 0 percent. 10 percent vesting of this tranche at 1.0 percent EPS growth does not appear to be sufficiently rigorous, and is inconsistent with accepted market practice where 50 percent for LTI awards vest at threshold, subject to a relevant performance hurdle. * The change in valuation methodology for the performance rights, which has led to a windfall gain for the executives, given the appreciation of the share price post FY25 year-end. It is noted that in the prior year, the face value was calculated using a five-day VWAP of share leading up to the date of the 2024 Notice of Meeting.*					
8	Approve Potential Termination Benefits to Duncan Coutts	Mgmt	For	For	For	No
	Voting Policy Rationale: A vote FOR these resolutions is warranted because the company's termination benefits framework under the Equity Incentive Plan appears reasonable, although the board has broad overall discretion for the treatment of awards for employees on cessation of employment, which may be of concern to shareholders.

	Voting Policy Rationale: A vote AGAINST this resolution is warranted. The proposed amendments to the company's constitution contain an explicit provision for the company to conduct virtual-only shareholder meetings without any ability for shareholders to physically attend. This represents a material corporate governance concern for many shareholders. The hybrid meeting format is preferred by many shareholders, and corporate governance concerns exist in the virtual-only format given that this may diminish transparency and accountability, including shareholder rights to ask questions and holding directors publicly accountable.

1	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
	*Voting Policy Rationale: A vote AGAINST this resolution is warranted to raise concerns for problematic pay practices and inconsistencies with good corporate governance expected amongst large ASX-listed entities. * The board committed to exercise the discretion afforded to it to allow any unvested performance rights to vest in full should Mr Tonkin cease to be employed by the company, provided he remains employed until at least 1 February 2026 (or such earlier date as may be agreed with the company). Full vesting of award upon cessation of employment is considered problematic and materially inconsistent with local market standards which recommend forfeiture of any unvested awards or at least pro rata vesting based on performance and the portion of the vesting period up to the time of cessation. * On 21 August 2025, the company announced that Mr Tonkin had advised the board of his intention to step down as managing director and CEO within the next 12 months. * Except the CEO, all executive KMP were granted further performance rights in the form of retention rights valued around 39 percent of their fixed remuneration, which is materially inconsistent with good governance in the local market. In exacerbating concerns, there is potential to reward executives twice for the achievement of the same outcome as the LTI and the retention grant are both solely subject to relative TSR. There is also no positive TSR 'gateway'. * Concerns are further raised that a former KMP's termination benefits include his retention rights, which appear to have been paid in full. It is noted that the retention award was granted on 22 November 2024, a few days before he ceased to be a KMP. * The company's LTI plan provides that equity awards will vest in full upon a change of control, which is contrary to local market standards. * The specific and quantified performance targets and actual results in the STI are not disclosed, making it difficult for shareholders to independently assess the rigor of targets. This is also considered a retrograde step in remuneration practice from the prior year where these were disclosed. * There is no STI deferral, which is not consistent with market expectations of 50 percent deferral. * The company does not appear to have a disclosed shareholding requirement for executives or non-executive directors.*					
2	Elect Peter Johnston as Director	Mgmt	For	Against	Against	Yes
	Voting Policy Rationale: A vote AGAINST the re-election of Peter Johnston is warranted as he is the chair of the Remuneration Committee and problematic pay practices are identified under Item 1 above. In addition, Mr Johnston is the chair of the Nomination Committee and female director representation on the board stands at 14 percent, which does not meet the guidelines of the ASX Corporate Governance Council Principles and Recommendations for larger companies in the ASX300 index to have at least 30 percent of each gender represented on the board.

4	Approve Grant of STI Share Rights to Mark Vassella	Mgmt	For	For	For	No
	Voting Policy Rationale: A vote FOR the grant of share rights representing the equity component of the FY26 STI (Item 4) and alignment rights representing a conventional LTI (Item 5) is warranted. The terms and conditions of the STI and LTI grants are consistent with the prior year. Similar to last year, some concerns are noted for the request for shareholder approval of the maximum FY26 STI rights when the year has not been concluded or reported on and may allow executives to receive a much higher STI if the share price appreciates substantially. This is inconsistent with better local market practice where the STI is a dollar amount and rights are offered at the end of the year. A qualification in regard to the LTI is raised to highlight concerns for questioned rigor of the 10 percent ROIC target measure and the all-or-nothing "cliff vesting" at this level, being inconsistent with local market practice. However, it is noted that the LTI is designed to vest more often, offset by the fact that the LTI is set below the market median.

2	Approve Issuance of FY26 LTI Performance Rights to Stuart Tonkin	Mgmt	For	Against	Against	Yes

Voting Policy Rationale: VOTE RECOMMENDATION Item 2: FY25 LTI A vote AGAINST the LTI grant is warranted. The magnitude of the opportunity is substantial and exceeds peer medians with only limited rationale and no apparent increase in the rigor of underlying vesting conditions. A substantial 20 percent of the FY26 LTI (or $880,000) is subject to time and service conditions only, being misaligned with shareholder interests and inconsistent with local market standards. The weighting of the ESG measure is equally substantial, with concerns for cliff vesting (all-or-nothing) provision. Concern is also noted that the LTI performance rights also carry a dividend equivalent amount ("dividends on unvested shares"), which is not in line with better market practice. Item 3: FY25 STI A vote AGAINST the FY26 STI grant is warranted. The quantum of the award increased significantly with no commensurate increase and, in fact, a material decrease in the rigor of underlying performance measures. Concerns are also raised for the 'in-advance' grant representing the maximum bonus, which may allow the value of the award to increase if the share price appreciates during the year, potentially contributing to a misalignment between pay and performance, and is not in line with market. Lastly, there is also provision for "dividends on unvested shares" by looked back to any dividends paid in FY26 and adding an equalisation payment to the STI bonus.

1	Approve Remuneration Report	Mgmt	For	Against	Against	Yes

*Voting Policy Rationale: A vote AGAINST the remuneration report is warranted. Despite the company's only recent inclusion in the S&P/ASX 300 index, the following disclosure practices are materially inconsistent with good market practice and inhibit a comprehensive understanding of pay and performance: * The company does not disclose final outcomes under the STI, which completely prevents shareholders from assessing bonuses in the context of company performance; and * The company does not appropriately disclose STI and LTI opportunities as a percentage of fixed remuneration for all executive KMP, which may suggest that bonuses are discretionary.*

2	Elect Ian Gandel as Director	Mgmt	For	Against	Against	Yes
	*Voting Policy Rationale: A vote AGAINST the re-election of Ian Gandel is warranted on the basis that: * He is classified as a non-independent director because he is a substantial shareholder (owning 6.38 percent of the issued shares) and due to his tenure on the board (more than 12 years) on a board that is not majority independent (only 20 percent independent). * He is a member of the Audit and Risk Committee, which results in the Audit and Risk Committee not being fully independent, which is inconsistent with accepted market practice. * The level of non-audit fees paid to the company's existing auditor (PwC) in FY25 is high (74.7 percent of total audit fees paid). This is a material corporate governance concern and may impact auditor independence. As a member of the Audit & Risk Committee, Mr Gandel has accountability for this. * Some shareholders may have regard to the resolution to appoint KPMG as the company's auditors (Item 4), and may choose to monitor the level of non-audit fees going forward.*

	*Voting Policy Rationale: Item 2 A vote FOR the re-election of Timothy Cumming is warranted, although it is not without concern: * Non-independent Board Chair's membership on the Remuneration Committee compromises the independence level of the Committee. The main reason for support is: * The Company's ongoing succession plan indirectly addresses independent representation concerns on the Remuneration Committee, particularly as the other non-independent member of the Committee is expected to step down at the 2027 AGM. Item 3-5 A vote FOR these items is warranted: * Although some governance issues have been identified, these do not justify a vote against the Directors standing for election or re-election at this AGM.*

4	Allow Shareholder Meetings to be Held in Virtual-Only Format	Mgmt	For	Against	Against	Yes
	Voting Policy Rationale: Vote AGAINST this resolution. While many investors recognize the benefits of virtual participation as a valuable enhancement to shareholder engagement, particularly when paired with in-person meetings, they have significant concerns about a potential shift to virtual-only meetings. Investors argue that virtual-only meetings could reduce meaningful interaction between management and shareholders, potentially enabling management to avoid difficult questions, marginalize certain shareholders, and weaken shareholder rights. Furthermore, investor feedback indicates a strong preference for retaining the option to attend meetings in person, even if many choose virtual participation.

More detailed information on KPIs, applied targets with weights, minimum and maximum thresholds is valuable to help investors comprehend the reward for performance. * Lack of responsiveness to shareholder dissent (66.7 percent support) to last year's vote on the remuneration report.*

	Annual Meeting Agenda	Mgmt				
1.	Open Meeting	Mgmt				
2.1.	Receive Annual Report	Mgmt				
2.2.	Approve Remuneration Report	Mgmt	For	Against	Against	Yes
	Voting Policy Rationale: A vote AGAINST is warranted as the proposed remuneration report is not in line with market practice, regarding actual content and disclosure. Concerns remain with regard to the disclosure of the weights and ex-post targets of the STIP. Additionally, the structure of the LTIP is not in line with best market practices. Lastly, former CEO Luca Concone was awarded an "end of service benefits award" of EUR 397,000 but the company does not disclose the rationale behind this grant. Furthermore, Luca Concone has been appointed as a non-executive director following his step-down from the role of CEO. In this context, the granting of such a payment appears misaligned with prevailing market practices, particularly given that the executive continues to serve within the company in a non-executive capacity.					
2.3.	Adopt Financial Statements and Statutory Reports	Mgmt	For	For	For	No
	Voting Policy Rationale: A vote FOR is warranted because of the absence of concern with the company's audit procedures or its auditors.

	*Voting Policy Rationale: A vote AGAINST is warranted because: * The disclosure of variable performance metrics remains limited. The company does not comprehensively disclose target values, threshold and maximum levels, or the degree of achievement against these targets; * Executives are eligible to receive cash bonuses, while disclosure on the structure and performance conditions of these awards remains limited. In addition, the company does not provide sufficient details with regard to the one-off or discretionary awards; * The disclosure suggests that the performance period is 12 months, followed by a vesting period of 12 months. * Executives received compensation from the subsidiaries. The company does not present sufficient details regarding contractual agreements of the company's executives with subsidiaries; * Supervisory board members received retirement benefits. Although we note that this is a common market practice in Poland, in this case, it is impossible to assess the level of contributions made to the pension scheme. * Lack of responsiveness to shareholder dissent (70.3 percent support) to last year's vote on the remuneration report.*
